Re: Arcat Letter of Testimonial

Dear Sirs,

We would like to sincerely thank Arcat, Inc., and their dedicated employees for their excellent work in presenting our company, Old Carolina Brick Co., in their building products listings. Our company and handmade brick product specifications are easily found in their website, Arcat.com. Selecting, detailing, and specifying our products in Arcat's open source format is clearly a benefit to our company.

An increasing number of architects are now finding and specifying our handmade brick products, which has had a tremendous impact on our sales and market position to the architectural community.

Thank you again Arcat Inc.

Sincerely,

David Frame

President
Old Carolina Brick Co
